We're all about flying - how about you?

If you're 14-20 years old and are interested in aviation, you should be part of **Ithaca's Aviation Explorer Post 62!**

Post 62 usually meets on the second Sunday of each month at 3:00pm at the East Hill Flying Club - Ithaca Tompkins International Airport, 62 Brown Rd. Ithaca NY - unless, of course, we're going someplace exciting!

Our activities in the last few years included tours of airport facilities and a visit to Cornell's airplane design team's workshop, talks by guest pilots and engineers, and "ground school" learning skills necessary for pilots. We also did several fly-out lunches and attended the Reading PA World War II Weekend. We also went on trips to the US Air Force Museum in Dayton, Ohio, and to the Air and Space Museums in Washington DC. We attended the EAA AirVenture show in Oshkosh in July, 2025, too...

Our schedule for 2026 is on the back of this flyer. We'll fly out to a couple of air-shows and some $100 hamburgers (that's a pilot joke), and hear from some interesting pilots about their flights.

Post members are also welcome at the meetings and activities of the local chapter of the Experimental Aircraft Association (EAA) and our sponsor, the East Hill Flying Club.
